A series of suspicious deaths in a retirement home draws Nameless into the confidence of a terrified former resident—and into the dark heart of a shocking conspiracy. In part five of the *Nameless* series, it's time to hunt.

Oakshore Park is Michigan's most exclusive assisted-living community. Presided over by two killer angels of mercy, it's also *the* go-to facility in assisted dying. For a cut, they make impatient heirs happy. Nameless must concoct a scheme just as cunning. But righteous retribution stirs disquiet in the avenger as light starts to shine on the black hole of his past. Should he welcome it or keep running?

From #1 New York Times bestselling author Dean Koontz comes The Mercy of Snakes, part of Nameless, a riveting collection of short stories about a vigilante nomad, stripped of his memories and commissioned to kill. Follow him in each story, which can be read or listened to in a single sitting.

I thought it had finally happened. I thought I had found the one book in the Nameless series that I wasn't going to like. The villains were as evil as ever but the take down just didn't quite pack the punch that it normally does. Since this is the fifth book of a six part series, I would have finished the series regardless, however that last chapter pulled me back in. I'm looking forward to the final story.

In this installment Nameless is hunting down the operator of a residence for wealthy elderly people. The doctor isn't doing his devilish business alone. An ex-stripper now nurse and sex mate is helping him to create some extra income by getting rid of the "overstayers". Dean Koontz gives some insight view how depraved some members of society really are. Some heirs simply can't wait until its their turn and try to accelerate the natural cause of death. What is Nameless and his team doing? Absolutely enjoyed this story and its ending. We also hear more about Nameless' memory... Recommended!
